

Monthly Job and Internship Emails

One of the ways the Orfalea College of Business can help promote your positions is through our monthly job and internship emails. On a monthly basis, the Orfalea Career Readiness Office pulls positions from MustangJOBS and sends them out to students in each major and concentration to increase awareness about available jobs and internships. If you would like to draw attention to your position, we will do our best to include your position in our next email. Please email ocobcareers@calpoly.edu with a copy of your job description, a link to your posting on MustangJOBS, and how students should apply/who should students contact.
